

tetgenmesh::shellfacettraverse

```
graph LR; A[tetgenmesh::shellfacettraverse] --> B[tetgenmesh::memorypool::traverse]
```

A diagram showing a function call. On the left, a gray rectangular box contains the text 'tetgenmesh::shellfacettraverse'. A blue arrow points from the right side of this box to the left side of a white rectangular box on the right. The white box contains the text 'tetgenmesh::memorypool' on the top line and '::traverse' on the bottom line.

tetgenmesh::memorypool  
::traverse
