

getSign

```
graph LR; A[Interpolator::interpolateTri] --> B[getSign];
```

A diagram showing a call from the function `Interpolator::interpolateTri` to the function `getSign`. The `getSign` function is represented by a gray rectangular box on the left, and the `Interpolator::interpolateTri` function is represented by a white rectangular box on the right. A dark blue arrow points from the right side of the `Interpolator::interpolateTri` box to the right side of the `getSign` box, indicating the direction of the call.

Interpolator::interpolateTri
